# Class of 2007

Our journeys have also taken us outside of the wards. We fell in love and got married. Some of us bought houses and became parents. Most of us did volunteer work. Many had a research paper published, and found a mentor. Most of us questioned our ability to be a doctor. We met friends for drinks to celebrate passing the boards, or to console one another after a less than successful shelf exam. We took vacations abroad, visited our families, and went to church. These too were steps in our journeys; living life both inside and outside the hospital and striking a balance between the two.

Each new experience, each piece of information learned (and forgotten and learned again), each new procedure, and every patient have been steps. Almost without realizing it, we took the first step, and the next, and the thousands of steps that followed, and they have led us here, to graduation and the next, long journey. Only this time, we travel as physicians. Congratulations and good luck to the class of 2007!

THEN ...

# ... and Now

## *Class of 2007 Dedication*

The Class of 2007 proudly dedicates this year's edition of the Gray Matter to Lynn Snyder. Her official title is Registrar, but she is so much more to all of the students. She has been there for every step of our education to explain, to help, to reason, and to comfort. Lynn is always available to the students and usually knows what we will need before we even realize that we need something! She has been an invaluable part of our time here at Wake Forest University School of Medicine and we will never forget her. Thanks, Lynn!

## *Class of 2007 Acknowledgments*

The Class of 2007 would like to acknowledge Dennis Boyles, Dr. Michael Hines, and Bob Bowden for the roles that they have played in our education. Each of us knows Dennis, probably a little too well, since he is always there to lend a helping hand when we have a technology crisis. Dr. Hines is the Class of 2007 Mentor and unfailingly gives sage advice at just the right moment. We will never forget Bob and all of the memories in the Anatomy Lab, where his endless knowledge is a staple. Thanks to all for everything!

## *Award for Teaching Excellence*

*Dr. Julia Cruz*

Dr. Julia Cruz, or Mama Cruz as she is affectionately known, is an extremely dedicated physician and educator. The Class of 2007 is happy to honor Dr. Cruz with the Award for Teaching Excellence. She is thoroughly committed to the education of medical students and is also concerned with our well-being outside of school. Each Thanksgiving, all students in Winston-Salem for the holiday are invited to her home where they are treated like family. These are only some of the reasons why Dr. Cruz is an inspiration to everyone. Congratulations, Mama Cruz!

## *Charles B. Clark Memorial Award for Outstanding Service to the Senior Class*

The Class of 2007 met Dr. Michael Hines during orientation to medical school, where he was introduced as our class mentor. He quickly made himself available to us and let us know that we could count on him for anything, and this has certainly proved to be true. He has been a constant presence during our education and has helped us foster professional relationships and establish ourselves as students committed to community service. A proud graduate of Wake Forest, he is an example of what we should strive to become as physicians.

## *Gold Humanism Honor Society*

The Gold Humanism Honor Society was founded by Dr. Arnold Gold and his wife, Sandra. The Wake Forest University School of Medicine Chapter was chartered in 2004. The society represents a chance to reward students who embody the historic pillars of the medical profession. Senior medical students are recognized by their classmates for demonstrated excellence in clinical care, leadership, compassion, and dedication to service.

## A Physician's Prayer

Lord, Thou Great Physician, I kneel before Thee.  
 Since every good and perfect gift must come  
 from Thee. I pray that You give skill to my hand,  
 clear vision to my mind, kindness and sympathy to my heart.  
 Give me singleness of purpose, strength to lift at least a part  
 of the burden of my suffering fellow-men, and a true  
 realization of the rare privilege that is mine. Take from my  
 heart all guile and worldliness, that with the simple faith of a  
 child I may rely on Thee. Amen.

Thank you to my family and my friends for all your love,

"Life is precious. Not because it is unchangeable like a diamond, but because it is vulnerable like a little bird. To love life means to love its vulnerability, asking for care, attention, guidance, and support. Life and death are connected by vulnerability. The newborn child and the dying elder both remind us of the preciousness of our lives. Let's not forget the preciousness and vulnerability of life during the times we are powerful, successful, and popular." Henri J. M. Nouwen

It has been an honor and a great pleasure to have the class of 2007 here for four years.

Your collective accomplishments are deeply appreciated.

Of course, your medical school will also be proud of all the care and service you provide humanity for years to come.

Our greatest legacy as a school are our students and alumni.

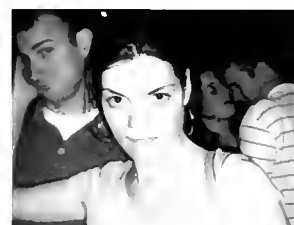

Bill Applegate  
Dean, WFUSM

**I send my congratulations and very best wishes to the Class of 2007--and join us in the field of cardiothoracic surgery!**

**A. Robert Cordell**

To the Class of 2007

Good health is a gift that is often as fleeting for the rich as for the poor, for the powerful as for the humble, and for the young as for the old. To be trusted to heal and care for those without it is also a gift even though such privilege is earned through much toil, perseverance, and trial. And so to neglect this gift or take it for granted invites the exhortation 'physician, heal thyself'. Live up to your calling, foster good deeds, and build lasting relationships. Drink water good for the soul. Only out of the richness of that supply come the grace to deal with life's adversities beyond exams and the resource to lavish thanks on those who have had a share in your successes. You have all started the race well. I am part of a parade of cheering faculty, friends, and family that are witnesses to that growing progress. The test of life ahead is to finish the race well.

Craig K. Henkel, Ph.D.

Professor, Neurobiology and Anatomy

As you get on with your life, into the strangeness and challenges of the future, there is just one final thought that Dr. Ober would like to pass on to you:

No snowflake ever falls in the wrong place.

[Zen saying]

K. Patrick Ober

Class of 2007:

Congratulations! As you enter the next phase of your training and practice, remember to care for yourself as you would care for others. May you experience healing, wisdom and vitality as you extend compassion, knowledge and skill to your patients. Listen to your patients; they will teach you what you need to know to be the healer you want to be.

Kathi J Kemper, MD, MPH

I have enjoyed those of you who have been with me in the heart station learning to read *ECGs*. As you continue your work as *Interns* and *Residents*, consider keeping a record of your interesting cases, which will help you in teaching those who come behind you in the future. Since you are expected to have long hours as a physician I hope you will have "good nights and good luck" in your work (from the movie of a relative - *Edward R. Murrow*).

Earl Watts, MD

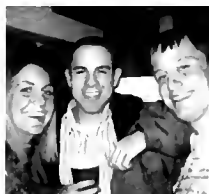

**Congratulations!**

**Graduating from medical school is a wonderful milestone to achieve. Continue your good works, you make us very proud!**

**Brenda Latham-Sadler, M.D.**

**Class of "before you were born"**

Dear doctors of the class of 2007:

During graduation weekend, I will be able to come for graduation on Monday but not for the reception or the hooding since my son, Nicholas, will be graduating from UNC-Chapel Hill. I will not have a chance to speak to many of you so I feel particularly honored to have been invited to leave some thoughts with you.

I know some of you well, most of you to some extent and a few of you only casually. I hope our relationship will continue to grow after graduation and that you feel free to contact me in the future whether it deals with your career plans or a patient with anemia. This is your professional home and like any family, each of you has a favorite family member. Call, write or Email that person.

I have carried the following verse with me since I was a medical student. It seems as relevant now as it was 30 years ago.

"This is not a prison, it is your home.  
It is not a place where you have to be, but the place where you are.  
It is the place where we walk and the walking of it, is called life.  
Since we should walk it only once,  
how important it is that we walked it with some purpose  
that we can call our own".

You have been taught well, you have learned much and you are well prepared for your next step. What will you bring in addition to your knowledge?

Every interaction you have with another person is an opportunity to leave them feeling respected, valued and better than if you had not shared that moment with them. You can be the beginning of a ripple that touches many lives. It will be your choice how often you make that happen and how much good each of your ripples carries.

Take pride in your work, your relationships with others and yourself. I am proud of you. You can always reach me through the Physicians Access Line 1- 800- 277-7654.

Mama Cruz

Dear members of Class of 2007

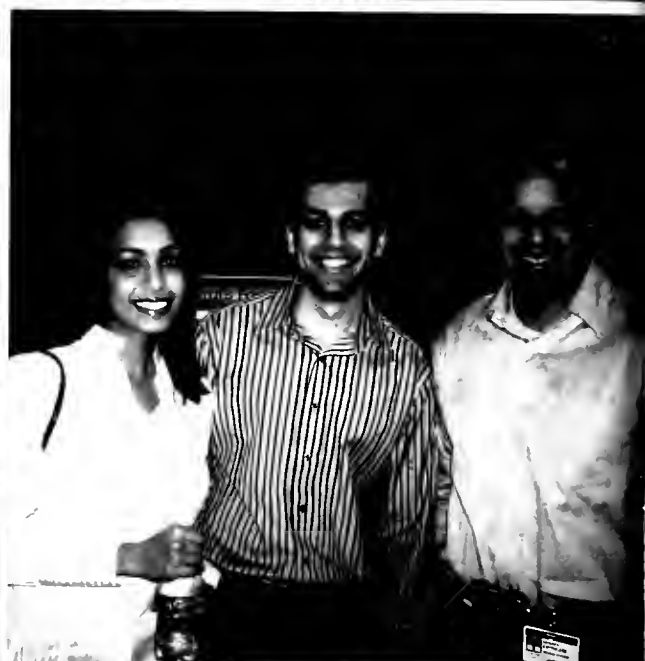

I continue to be impressed with the quality and dedication of our students. You have performed well in your four years here and we faculty wish you all the best in the future. Never lose sight of your primary role as the patient's ultimate advocate in all affairs. Their trust in you is a covenant to be earned and treasured.

Congratulations to you all.

We knew you were determined when you walked at 8 months;  
 We knew you were smart when you spelled your name backwards at 4;  
 We knew you were blessed the day you and Chad were married;  
 and we know you'll be successful as a pediatrician.

Becoming a doctor has been your dream,  
 accomplished through your hard work, innovative ideas, and tenacity.  
 The feisty determination of your youth has been tempered by your grace, your radiant spirit,  
 your deep compassion for children, and has served you well in achieving your goal.  
 Enjoy the accolades from friends and family. You deserve them.

We've always been proud to call you daughter or wife,  
 and now you should be incredibly proud to call yourself

DR. CAROLINE THOMAS BROWN

A miracle came to our house - our little girl weighing only 2 lbs.

She has decided to be the best she can be.

She dares to make a difference.

She demonstrates that given the opportunity...

She will master whatever she decides to do!

Our miracle in the house is now being released to make a difference in the world!

God Bless You,  
Love

From sitting in your high chair  
"reading" the PDR, to your  
graduation as an M.D., and the  
beginning of your naval career...  
how quickly the years have flown!  
As your parents, we are so very  
proud! We congratulate you on the  
journey finished, and encourage you  
on the road yet before you.

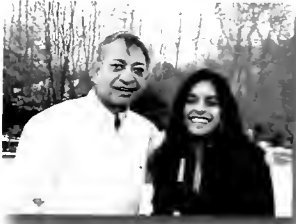

Sadly, we can not fail to mention  
those who knew of your desired  
life's course, but will miss

our celebration of your hard work successfully completed: Granddaddy This Way, MiMi,  
ason and Grandmama The Other Way. Somehow, we know they are watching and  
celebrating with us too!

Never surrender your dreams! Always do your best! Remember that the right path is  
usually uphill! Remember that contentment is true wealth!

*Very early one bright Carolina sky blue day  
A happy event too place the last day of May;  
Grandparents, family and friends gathered to see  
The newest addition to the Beaver family.  
A healthy, happy bundle of joy;  
God had blessed us with a new baby boy.  
Always smiling, a sweet happy child,  
Of course, at times, you ran us all wild!  
A big sister, and a little one, too  
Forever there to watch over you.  
School, sports, church - all the fun stuff you did,  
Elementary and junior high school-how the time fled!  
Then came cars, campouts, graduation and friends,  
How could high school come to an end?  
Then you left us; Carolina on your mind.  
More friends, girls, and education to find.  
God blessed your life and opened a door,  
Wake Forest called; med school to explore.  
Now here we are, another graduation day,  
A grateful family gathers to say:  
May God bless you - and all you will be,  
Behind your name now---the letters M.D.!*

*We love you Clint!

The Gray Matter, Volume 63, was produced by the yearbook staff at Wake Forest University School of Medicine and was printed by Jostens in Winston-Salem, NC. The account was serviced by John Troy, Sales Representative, and Kristen Stimmell, Plant Consultant. Lynn Snyder served as advisor.

The cover was designed by Amy Wallace and Mary Lee Helms. It is a four color litho with Super Matte Lamination and UV Application. The end sheets are made of 150 pound Ceontempore Recyclled Paper with Black Ink.

All layouts of this yearbook were submitted online via the Jostens Yearbook Avenue Designer. The 248 pages of this book were printed on 80 pound High Gloss Paper on Heidelberg Speedmaster Six Color Press.

All photographs were digital or digitalized. The cover art, portraits, and various other photos were taken by Creative Communications and provided to us by Linda Arcure and William Wilner. Members of the Classes of 2007, 2008, 2009, and 2010, the Physician Assistant Program, and The Graduate Studies Program provided candid photographs.
